4. **Data Engineer / Software Engineer** (Banplus Banco Universal) 06/2016 - 03/2017
 - Migrating and Developing more than 200 Financial microservice and Scripts around Python Java and C# .Net, Spring Data, to create BI ETL data sources for migrating as well as data testing scenarios, Rest and SOAP services for Power BI. • Development and Implementations Microservice for Commercial Banking, using Java, Middleware Jboss Fuse, WebMethod, Workflow, .Net Framework, Windows Server, IIS, Postgresql, in Cloud AWS, GCP, Azure, applying Rest, SOAP. • Developing Financial microservice and Scripts in **Python, Django, Flask**, .Net C# Microsoft SQL Server Oracle PostgreSQL to create BI ETL data sources for migrating data testing scenarios, Rest, SOAP. • Collaborate with cross-functional teams. Support the Android development team in Kotlin. • Develop micro-services aligned with the company's technical architecture and business objectives. • Apply in development object-relational mapping (ORM) frameworks. • Create data sources for **Power BI, MicroStrategy**. • Develop backend services and APIs using **Python, C# and Java**, ensuring high performance, scalability and reliability. • Use of containerization technologies like Docker and container orchestration tools like Kubernetes for test deployment in development. • Collaborate with architecture team to solve problems and with financial and economics functional teams to test results.
5. **Scrum Master** Z-Zeus Consultores C.A. 10/2012 – 04/2014
 - Functions: Implementing Scrum methodology. Coordination of development staff. Facilitate, lead, and communicate, to promote, support, and ensure the Scrum Process is understood and lived in the organization. Helping the team solve problems. Management and monitoring of projects, Training and coordination of programmers, Support to the management and monitoring of the project; Administration, Development and Maintenance of software. Scrum Master focused on implementing the architecture of an ERP Prototype.
6. **Product Owner PO** Z-Zeus Consultores C.A. 01/2010 – 10/2012
 - Functions as Position: Product Owner PO (researching to provide design for architecture prototype of an ERP). • Perform Survey of Business Requirements; • Design thinking • Document UML processes of ERP solution, as well as training of programmers; software development and maintenance remotely; **Java** tester, SQL Developer; • Survey, analysis and documentation. Managing the product backlog. Product Backlog Refinement. Create user stories and Prioritize. • Product vision. Communicating with other stakeholders. • Development stages and Evaluating progress. • Taking requirements, validation and monitoring with the user. • Specification of functional use case designs and diagrams; • Instruct and coordinate development staff on their roles facilitating the development process; • PO and PMO Scrum. • Investigate requirements for ERP by re-engineering other ERP programs such as DataPro, Open Bravo, Profit Plus, **Python**, Open ERP, ERPNext. Personnel in Charge: 5 developers.
7. **Analist Management Specialist** (Telefónica Movistar) 06/2008 – 01/2010
 - BI Analyst, Software supplier's Coordinator, Automation Testing, Software Development, • Survey of Business Requirements • Project monitoring, Interaction with customers and suppliers, • Use of BI Pentaho, and Traditional ETL using **Python** and PL/SQL in SAP and Oracle Financials for support users of Financials Departments. Hexagonal Architecture. • Feel proud as Developer BackEnd of a system from scratch that replaced another app called "Remedy" based saving \$ 40 thousand USD per year to the company just before the beginning inflation extreme of Venezuela. • Training of users. Documentation of projects and systems in BPMN, • User management, Requirements taking, validation and monitoring with the user. • Maintenance and administration of Project Information System (SIP +) a Workflow SqlServer based / BPM integrated to the platform and Java Oracle Developer for two information systems at the same time.
8. **Software Engineer / Data Engineer** PDVSA – Venezuela's **Oils Company** 01/2005 - 06/2008
 - Development and recovery of information system **Java**, Struts, Oracle PLSQL, SQL Server, J2SE, Jaspers, Ireport, Cristal Reports, Jakarta Tomcat, Jboss, GlassFish, WebMethod, Workflow, Unix HPUX. .Net Framework, Windows Server, IIS, • Developed strategical BI a statistical script and Dashboard for Reporting to direction level of the organization. • Maintenance of stratification of oil projects in **Python Django, NumPy, Matplotlib, SciPy, Oracle PLSQL, Sql Server**. • Development of information systems and management of social projects in **.Net, C#** Sql Server. • Development Microservice as data source in Java Python C# for generate BI Bussines Intelligence Dashboards and Reports for others apps and departments. • Generate BI Bussines Intelligence and Reports in hydrocarbon management. • Apply Functional and Unit Tests. • Document in UML. • JUnit Automated Testing. • Functional and automated testing. • User training facilitator. • Functional Requirements Analyst. • Recover systems due to sabotage. • After a while, I returned in 2016 to PDVSA as a Freelance, developing a Pentaho application for data integration, OLAP services, reports, information dashboards, data mining and extraction, transformation, loading (ETL) using Python scripts. Supported a petroleum

management project application using Postgres **Python Django** and created data sources for **Power BI, MicroStrategy**.

9. **COCA COLA – FENSA. – Caracas, Venezuela** 05/2003 - 12/2003
System Developer. Technologies: .Net C#, SQL Server, Transact SQL.
10. **Barsa Planeta de Venezuela - British Editorial** 01/2003 – 05/2003.
System Developer. Technologies: Visual Basic, SQL Server, Transact SQL.
11. **Bureau of Accountants, Oswaldo Sarmiento and Associates. O.A.S.** 10/2000-01/2003
Technical Advisory and Systems Developer. Technologies: Visual Basic, SQL Server, Transact SQL.
12. **Central Bank of Venezuela / BCV (Banco Central de Venezuela)**
– **01/1999-09/2000**
Technical Advisory **Systems Developer, Systems Analyst.**
Y2K event Tester and Consultancy for users.
Technologies: Microsoft Access, VBA Visual Basic para aplicação, Macros de Excel, Oracle PL/Sql, Sql Server, SQL Server, Transact SQL.

Education

- 2007 - 2014 [U.N.E.F.A.](#) "Universidad Nacional Experimental Politécnica de las Fuerzas Armadas"
Master in Management of Information and Communication Technologies.
- 2000 - 2005 [U.A.H.](#) "Universidad Alejandro de Humboldt"
Informatic Engineer.
- 1993 - 1997 [I.U.T.A.](#) "Instituto de Tecnologia de Gestão Industrial"
Informatic Engineering Technician.

Courses

- 2009- SAP 01 Overview Course. Length: 3 Days. Institution: Latino SAP America Caribbean, Centro Letonia Building, Caracas Venezuela.
- 2007 "Installation and Administration Course Pentaho. Management Tools of Business Intelligence (BI). Duration: 2 Days. Place: Computer Management XXI / CPM Matrix Solution, Caracas Venezuela.
- 3. 2005 - Specialization Application Development e-Business. Certification IBM Advanced Career Education (IBM – ACE) Programing Object Oriented and Web Applications. (J2EE, EJB, Servlets, JMS, JDBC, Swing, UML, XML, MVC, SQL). Training Program for Web Business Technology.
- Institution: IBM of Venezuela, 1 year and 4 months.
- 2019 - DevOps, Duration: 5 Day, Accenture Brazil.
- 2018 – Metodología Agile Scrum. SFPC - Scrum Foundation Professional Certificate – Portuguese. Autoridad emisora CertiProf
- 2015 -Bonita BPM Camp for LATAM , Length 1 Day, BonitaSoft webinar online.
- 2015 - Bonita BPM User Authentication through LDAP o SSO , Length 1 Day, BonitaSoft webinar online.
- 2012 -Webinars Online: Power BI, Documentum, Selenium IDE, Microstrategy.
- 2006-English Language Course (Intermediate Level B2) Institution: UCV - Modern Language
Duration: 1 year and a half.

Certifications

- Certification Scrum Foundations Professional Certificate – in Idiom Portuguese / CertiProf International
- Certification Professional Developer Java / IBM.
- Course SAP Overview / SAP Latam.
- Course Oracle PL/SQL / Udemy
- Course DevOps / Meta
